This is a symbiotic relationship with young local entrepreneurs who we would like to work with to serve food in and around our pubs. In the main our pubs are listed buildings and so not well set up for a large traditional foods offer that make economic sense. This has been proved as in almost all cases we have either bought closed or unviable pubs. Our intention is for the food traders to only operate (a) Between the hours of 12 (midday) and 9pm, the street trader shall only operate for a maximum of five hours. Reason: To minimise the negative traffic and environmental impacts of the trading. And (b) Trading shall not occur on more than four days in any one week. Reason: To minimise the negative traffic and environmental impacts of the trading. And (c) Trading shall not occur on more than 200 days in any one year. Reason: To minimise the negative traffic and environmental impacts of the trading. And (d) The traders will provide an additional bin for use by customers. Reason: To ensure that there is no or minimal excess litter caused by the trading. And (e) At the end of trading on each day on which they trade, the traders will undertake a litter sweep of the immediate vicinity of the street trading space.
